VETO OF THE R. R. BILL. Madison, Oct. 7.

Both branches of the Legislature re-assembled ye-terday afternoon, and devoted a brief session to the passage of appropriation tills and the closing no of their general business. They met again, this morning, short of work and waiting to hear from the Governor, on the subject of the Land Grant Bill. They did not wait long.

At 11 o'clock, the Private Secretary came into the Senate with a message in writing from the Governor, returning the bill disposing of the Land Grant, and stating at length his objections to its becoming a law. The message was read by the Clerk, and listened to, in profound silence. or the Senate and a crowded lobby. I will en. dravo, briefly to enumer to the Governor's objections, and as briefly to give my reasons why I think them insufficient, untenable, and un-states-

The bovernor objects next-that the bill ivc'udes two separate and distinct objects, two " private and local" laws, to wit : one organizing a new Company to take charge of the North Eastern grant; the other, amending the charter of the La Crosse Company, and giving to that corporation the Northwestern grant. This, the Executive holds to be a palpable violation of Att. 4 of the Constitution, which, he thinks, was intended to prevent the passage of two distinct measures, in one act and by a union of interests, which could not have passed separately.

He objects, seem ly, to the bill, that no provision is therein made, to bring into market the lands thereby granted to the La Crosse Company, and to dispose of them to actual settlers, at lim-I od prices ; and he seeks to show that the polley of the Company would be to keep them to of market, or sell them to speculators.

He objects, thirdly, that while the act of Congross, donating the lands to Wisconsin, authorizes the Governor to appoint agents to relect these lands, the bill transfers that power to the La Crosse Company, and is therein a violation of the said act of Congress.

He objects, fourthly, that the bill provides for increasing the capital stock of the La Crosse tor millions of dollars, which is to be distributed under the supervision of the directors, as they may think best calculated to advance the construction of the road; the Governor holding that all citizens of the State should have a chance to take stock, and that a maximum should be fixed for any single subscrip

He objects, fifthly, that the consolidation of the La Crosse and Milwauken with the Milwau kee and Watertown Con.panies, strengthened by time Land Grant, would create a dangerous monopoly, overshadowing the State, corrupting the Legislature and co-ercing the Executive, and he thinks that the influence s successfully brought to

road from Portage to La Crosse, and the Land Grant Company theirs, from Portage to St. Croiz; with it, the La Crosse Company would build but one road, with branches perhaps; and that thus the bill would fail to secure an additional Rail Road to the State.

He objects, seventhly, that the bill gives these Lands to a private Company, the majority of the directors being located in Milwaukee, and rense centing but one locality and interest; whereas he thinks that all parts of the State and all its interests should have a voice in the management of the Grant and a representation in the Board of

He objects, righthly, that the bill does not designate rither Madison or Columbus as the starting point of the road; that, consequently, those might be a difficulty in obtaining the lands from viovernment for that section: that without some specific provision, the Company might build the road from Madison to Portuge, by may of Column bus, in-tead of direct; that there is nothing it compel the company to build the whole road, and they might, if they saw lit, refuse to build that portion from St. Croix to Lake Superior, and that the experience of the State, in reference to Limit Grants, (special reference being made to the Rock River County Grant) should teach the Legislature to insign upon the most rigid rest trictions.

So much for the North-Western Grant; as to the North-Eastpin, it is dismissed with the single suffering Free-State people there. In allusion to brief remark, that "many of the objections to chapter 2 are equally applicable to chapter 1." As soon as the message was read, Mr. Hadley moved to postpone its consideration till to-morrow, and that it be printed, which motion the tienate agreed to without dissent.

It will be seen that the objections of the mess age are all to the North-Western Grant. I lisened to the document attentively, have pondered it weak and inconclusive. To the first objection grant would be to encourage and premote the octhe means for its construction.

The third and fourth objections are frivolous. entizen of the State desirous of taking stock.—

The fifth objection, though not without plausibilianch things can be.

ity, is certainly not of a character to justify a veto. All concentration of capital, intellect and of money, brains and energy, few great enterprizes would ever be undertaken, or accomplished. The consolidation of the La Crosse and Milwankee , and the Milwankee and Watertown R. stockholders, and will prove a vast benefit to the State; and supposing the Northwes.em through the day. grant to be given to a new Compray, the neces sities of trade and the conveniences and economy of traffic would eventually compel a consolidation with some other Company, extending from age. Portage to Lake Michigan. The dangers to be apprehended from such a "monopoly" are merely chimerical. The people at large are much more easily influenced against, than by these "Mammoth Corporations." The very cry, and mere suspicion of "Monopoly," makes them comcaratively weak and almost defenseless.

Eastern section of Wiscomin, are represented by this Company; and in the choice of directors for carrying on such a work, residence is the last cason, by such an objection.

Lastly, the belief binted at, rather than exressed, that the company designs building the road from Wadison to Postage, by way of Cotumbus, instead of to Portage direct, or that it would refuse to build the North-eastern section of its line, because it might not be profitable; or that, because the Rock River Land Grant was not satisfactorily managed, therefore the La Grosse R. R., (whereof Mr. Kilbourn is President Countries of the Countr ent grant-all these objections seem to me trivial and decidedly of the Buncombe order.

I had an opportunity of knowing him well. I joined his party in the Rocky Montains in 1843, and was with him until he arrived in California the following spring. I was also with him in his campaign in this State, during the Mexican war. I have seen him in many a trying situation, where, if he faltered, we would be lost, but he always met. every difficulty bravely. I recollect very well when we were traveling on the east side of the Sierra Nevada in the winter of 1843-44, when our animals gave out, and we had to walk; he set the example by walking himself. It was not seen you walk in order to evertage to the control of the set of the control of the contr blue lodges! Let us inquire what has slavery, on which to se its prelensions. They cannot rest on our a storic recollections. Slavery socks neither de fense nor apology in the intentions proclaimed · concealed of the Washingtons, the Jeffersons, ie Hamiltons, or the Madisons-our political

T'la heresy. There is no basis in the bible that affords defense or palation for American elavery. Its whole scope, n spirit and in letter is against it. This Convention is impressed with the conriction that an argument cannot be constructed which shall justify the englavement of any man which shall not everthrow the liberties of every man. An ancient example contains a motive not obsolete and not without point in application at this day, exhibiting the working of an slarmed conscience when they said, "We are verily guilty concerning our brother, in that we saw the anguish of his soul, when he besought us and we would not hear, therefore, is this dislistress come upon us."

And as one means to this end, we recommend to the members of this body to observe the anti-slavery monthly concert of prayer, on the 4th Sabbata evening of each month. H. LYMAN, Chairman Com.

The Conlition Between the Know-Nothings and Democrats. Brooks, of the New York Express, lets the Co-alition out of his bag. He says that "the Peo-ple do not intend to have Fremont elected even if union and combination against him are indis-pensible." the polls and made to vote for Brooks for Governor.

Ex-Governor Floyd, of Virginia, an Elector on the Bachanan ticket of that State, made a speech yeaterday in Wall street, in which he too let the cat out of the Coalition bag. Said he:—"Ifind from a sojourn of one week in New York, that the enemy of the Democracy is not the American Party. There are bonds of union between the Democracy and the American Party." This was quite explicit, and about a good as the publication of the bans or marings between Know Nothingism and "Democracy." But to leave no doubt about the hrrangement which in this State swaps Purker for Brooks, and gives Hindoo votes to the Buchanan electors, Floyd went farther and to the Buchanan electors, Floyd went farther and so the Euchanan electors, sloys went tarrier and said: "If you can show me that the candidate of the Black Republican Party can only be beaten by my vote being east for Mr. Fillmore, I will give my vote to Mr. Fillmore, if the ground opens and swallows me. Virginia too will come up and stand at my back in that moment and in that vote."
